

Guest Lecture on Quantum Dots

The Chemistry Department of the college organized a guest lecture on Quantum Dot's on 24th August 2024. The Guest speaker was Dr Raghmani Singh Ningthoujam Scientific Officer, Department of Chemistry BARC, Mumbai.

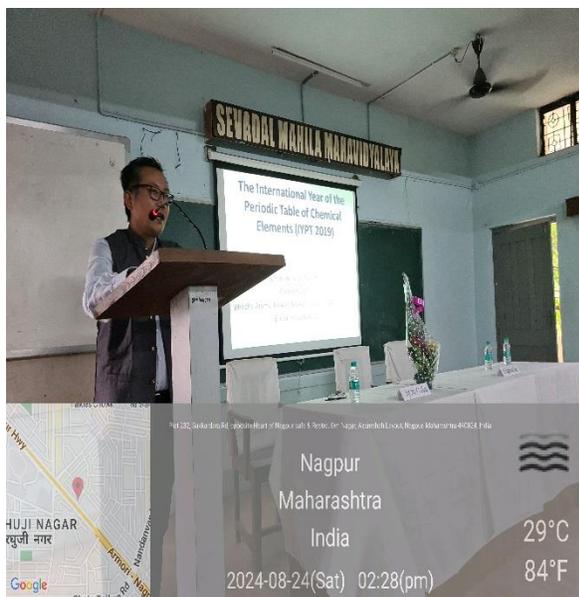

He Explained the students that Quantum Dot's are tiny particles made of semiconducting materials that have unique electronic properties. He also explained the applications of Quantum Dot's like in Biomedical imaging, Drug targeting, Energy production and TV displays. He not only explained the topic but also gave additional information on how to enter BARC and how to apply for post in BARC. The students were happy as they had learned a very different topic with ease. The Lecture was a great success .53 students were present for the lecture.
